

Dibyajeet Kirttania

UI/UX Designer — Enterprise Platforms & Workflow Design

Durgapur, India | +91 9749732887 | ux.dibyajeet@gmail.com | Portfolio | LinkedIn | GitHub

SUMMARY

UI/UX Designer with experience across enterprise SaaS product design and independent, self-directed projects. Skilled at translating complex business workflows and stakeholder requirements into clear, accessible designs — journey maps, user flows, wireframes, and prototypes — that hold up once real users and developers touch them. Comfortable working in Agile, cross-functional teams alongside product owners, architects, and engineers, from research through implementation and post-release validation.

SKILLS

- **UX Design:** User Research, User-Centered Design, Design Thinking, Journey Mapping, Service Blueprints, User Flows, Wireframing, Prototyping, Usability Testing, A/B Testing, MVP Scoping, Design Specifications & Acceptance Criteria
- **UI & Visual Design:** UI Design, Visual Design, Design Systems, Reusable Component Libraries, Responsive Design, Accessibility & WCAG-aware Design
- **Collaboration & Delivery:** Agile/Iterative Delivery, Backlog Refinement, Stakeholder Management, Cross-Functional Collaboration with Product, Architecture, and Engineering
- **Front-End Development:** HTML, CSS, JavaScript — used to build and ship personal projects end-to-end (see Kanban Board below), sufficient working knowledge to collaborate closely with developers
- **AI-Assisted Workflows:** Claude, Claude Design, Figma AI, Google Stitch
- **Tools:** Figma, FigJam, Adobe XD, Adobe After Effects, Adobe Illustrator, Protopie, Chrome DevTools, Confluence, Jira

EXPERIENCE

Consultant UI/UX Designer

Mar 2025 – Present

Freelance / Self-Directed

- Consulted with local businesses on their websites, advising on UX and design improvements.
- Worked with agencies as a freelancer on website redesign projects.
- Delivered branding and graphic design work for local business clients.
- Learning web development through The Odin Project to deepen front-end implementation skills.

Senior Associate UX Designer

Nov 2024 – Mar 2025

Workforce Cloud Tech India (Recruit CRM) — Enterprise Recruitment SaaS Platform

- Individual contributor and owner of all communications-related features inside Recruit CRM, an enterprise workflow SaaS platform used by cross-functional teams.
- Contributed to the New Design System project: defined system goals and built reusable, standards-based components in Figma, improving design-to-development consistency.
- Contributed to MVP scoping and design for early-stage products — Recruit Craft, Candidate Portal, and Recruit Pulse — partnering with product owners and engineering through delivery.
- Delivered careers pages for two clients that met expectations with zero revisions, reflecting close alignment with stakeholder and business requirements.
- Trained two design trainees in design fundamentals and design thinking, contributing to the team's design practice.

Associate UX Designer

Nov 2023 – Nov 2024

Workforce Cloud Tech India (Recruit CRM) — Enterprise Recruitment SaaS Platform

- Designed the Target Report dashboard feature end-to-end — research through implementation — directly leading to the onboarding of a 100-seat enterprise client. [View project ↗](#)
- Designed a phone-calling workflow letting users purchase numbers and make calls directly from the platform, translating a complex operational process into a streamlined in-app flow. [View project ↗](#)
- Improved the automated communication email feature and in-app task management workflows based on usability feedback.

OTHER PROJECTS

- **Kanban Board:** Designed and built a Kanban task board end-to-end from Figma mocks to a working product, including a token-based design system and accessibility-driven priority color hierarchy. [View project ↗](#)
- **Sync Up:** product design exploration focused on collaborative, real-time workflows. [View project ↗](#)

EDUCATION

Bachelor of Design (B.Des), Fashion Communication, NIFT, Kolkata

CGPA: 8.7 | Coursework: design fundamentals, typography, layout, motion graphics, design thinking, branding, and strategic design management.
